15 <p>Sometimes, you may want to resize an image in your website, but not the file itself
   . Like,
16   here is the bush picture, the same one I am using up above, but I made it smaller.
   </p>

20 <p>The downside to this is that it gets distorted (among other things).
21   It is better to resize a picture in an image editing program
22   instead.</p>
