

Name: _____

Assignment: Please make a simple layout for your website, **at the least** it should be two columns, with a navigation bar on the left side and content in the right column. You **must** also add extra pages that use the same layout with external CSS.

Bonus props to students who can manage a three column layout! **Remember**, the maximum width of your layout should be no more than 780 pixels.

REMEMBER TO STAPLE THIS SHEET TO YOUR ASSIGNMENT!

***** NOTE: This is your last assignment! Please make sure to VALIDATE your HTML and to TURN IN ANY MISSED ASSIGNMENTS so you don't fail! You may email me assignments until midnight, January 12. *****

It is recommended to style and make your page look professional. If you need help, remember to check the website for reference material and the different websites for help.

Since this is the last assignment, try to do your best job! Make it as cool as you want...

Linking to external CSS:

```
<link rel="stylesheet" href="stylesheet.css" />
```

This goes in between the <head> and </head> tags, for example:

```
<head>
  <title>A title</title>
  <link rel="stylesheet" href="stylesheet.css" />
</head>
```
